

ETCHer SPOTLIGHT

Academic Background:

Chemical Process Operations degree, 4th Class Power Engineering, PMAC Certificate in Procurement

How did you start in Procurement?

After almost 15 years in Oil and Gas Facilities operations I took an opportunity for a career change when our Company implemented SAP as their core ERP system. The SC team leader was eager to have my field knowledge on the team and quickly became my first SC mentor.

What advice would you give someone starting out in the industry?

Analyse, Adapt and Overcome! Change is inevitable, embrace change, it will propel your growth. Change will bring challenges that you need to understand, adjust to, and triumph over. Each time you will grow as a person. Analyze, Adapt, Overcome!

What surprised you the most about your growth at ETCH?

How much I have come to care about all the great people that I work with! The incredible culture that we have generates such a wonderful togetherness that you come to really care about each other.
